

DIAZ BESOUGHT FOR ASSURANCE OF RESIGNATION

(Continued From First Page.)

Rebel successes in the southern and central parts of Mexico, where the resignation of President Diaz is said to be preferred above all other demands for political reform. It is known caused General Madero to take the stand he did. He feared, it is said, that his peace negotiations would be of little avail, no matter what formalities were pursued. If the main issue were disregarded, the main issue would be disregarded.

General Madero to-night received the following message from Mexico City from Francisco Figueroa, chief of the insurgent forces in Guerrero:

"In personal conference to-day with Minister Limantour and Minister Gonzalez Cosio. With the eight thousand men who compose my army I will unconditionally support the conditions of peace being arranged by you."

Outlook Is Serious.

New York, May 4.—Should the negotiations for peace between Madero and the Diaz administration fail, the country will be in a blaze of revolution from one end to the other as soon as the news gets out. This was the message received here from Mexico to-day by the Board of Foreign Missions of the Methodist Episcopal Church. In a letter written on April 28 by the Rev. John W. Butler.

Continuing the gravity of the situation in the capital, there followed a telegram from Dr. Butler, dated to-day, reading: "Excitement exists. Outlook serious. Circumstances have changed for the worse. Insurrection prevailing throughout the field."

Dr. Butler's letter in part says: "While negotiations for peace are going on up in the Northeast, disturbances in all parts of the country seem to be spreading. This is particularly so in the states of Guerrero and Puebla and in the latter state our workers are being annoyed."

"Notwithstanding the victory which the government forces won some days ago in this district, near Atlixco, a large part of the country seems to be in the hands of the rebels. It is to be sincerely hoped that peace negotiations will be pushed and will include not only the states where Madero himself has been operating, but the entire country. We are all hoping much from these negotiations, but should they fail, the country will be in a blaze of revolution from one end to the other."

In a blaze of revolution from one end to the other, immediately after the news gets out.

From the States farther north private messages were received here of disorders along the Mexican line of the Southern Pacific. Word came that at Mazatlan, a small town to the north of Mazatlan, the wires had been cut, after a band of revolutionists had leveled assessments on the merchants and made off again.

Predicts Intervention.

Washington, D. C., May 4.—Invasion of Mexico within the immediate future was predicted in the House to-day by Representative Focht, of Pennsylvania. He said an army officer just returned from the border told him intervention was inevitable. Mr. Focht did not name the officer. He said the officer, a young man associated with him, declared that the army was going over the Mexican border "to stay."

"I would not think that the President would object. We have been absorbing everything they did not want in Europe for years and years. We have taken as trade in stock what nobody wanted in the Philippines—another man's burden. We added a little more down here in the States. I don't know why couldn't we occupy something that is worth something, and where we could be of some great use to some body?"

"I am not a soldier of fortune. I do not expect to be at the head of the army, but we are called upon to discuss occasionally paramount questions, and I believe this will be a mighty interesting one before the House adjourns."

Mr. Focht contended that the United States wanted empire, and it was about to follow the "lure of gold and the call of adventure."

Burn Railroad Station.

Laredo, Texas, May 4.—Insurrectos to-day burned the railroad station at El Salado, on the National Railway, south of Saltillo, cut all telegraph wires, and began a march toward Saltillo.

"To-night," wired the telegraph operator at Saltillo, "eighteen carloads of rebels are camped within ten miles of the city."

Saltillo is a city of 30,000 inhabitants, capital of Coahuila. It is 235 miles south of Laredo. The garrison is said to number 100 men. Saltillo is at present the terminus of the National Railway telegraph lines.

South of Monterey all the wires of the Federal Telegraph Company are out of commission to-night, interrupting communication between Mexico City and Laredo.

PLAN LOVE FEAST ON BATTLEFIELD

Union and Confederate Veterans May Meet Again at Bull Run.

[Special to The Times-Dispatch.] Washington, D. C., May 4.—Plans for a big fiftieth anniversary love feast, to be attended by the Union and Confederate soldiers who fought each other in the battle of Bull Run, are being made in Washington. The peace meeting is to be held July 1, on the same field where the men met fifty years ago to take the lives of one another, and it is expected that several hundred of the soldiers on each side will attend. Considerable impetus was given the project at a raising of the Stars and Stripes on the battlefield near Manassas, Va., and Washington, D. C., where the veterans returned to this city to-night enthusiastic over the plans.

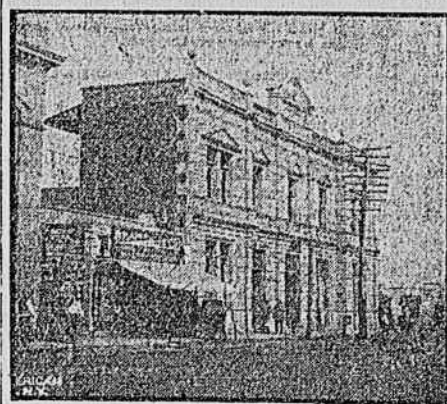

Lieutenant George C. Roud, of the United States signal corps, in a speech he made at the flag-raising, said that the soldiers should abide by the old Mosaic custom in which every one met and wiped out their debts and grievances once every fifty years. He is in Washington to further interest in the indorsement of the Daughters of the American Revolution and the United Daughters of the Confederacy.

POTASH MATTER IS NOT TO BLAME

It Had Nothing to Do With Hill's Withdrawal From Post at Berlin.

[Special to The Times-Dispatch.] Washington, D. C., May 4.—President Taft to-day gave Representatives Lever, of South Carolina, and Brantley, of Georgia, his personal and emphatic assurance that Dr. David Jayne Hill had not resigned as ambassador to Germany on account of the potash controversy. As a result of this conference Mr. Lever promised the Chief Executive that he would withdraw the

resolution which he presented in the House the other day calling for information as to the reasons why Dr. Hill had left the diplomatic service.

While the President did not confide to the two representatives the reason of Dr. Hill's resignation, he made it perfectly plain that the ambassador had not decided to leave Berlin because of the apparent failure of the potash negotiations.

As he left the White House, Mr. Lever said that he was wholly satisfied with the statement made by the President, and that he would not press his resolution. This leaves the potash matter as far from a solution as ever.

GRAND JURY RETURNS 21 NEW INDICTMENTS

Nineteen Are Against Labor Leader and His Brother, Charging Murder, and Two Against McManigal, the Informer.

Los Angeles, Cal., May 4.—Twenty-one new indictments, according to good authority, were voted late to-day by the grand jury against the accused dynamite conspirators, James B. and John J. McManigal and Orrie E. McManigal.

Nineteen of the indictments, it is said, are against the McManigals alone, and charge them with murder in connection with the blowing up of the Los Angeles Times newspaper plant on

HOPE TO DIVERT TIDE OF TRAVEL

New Orleans, May 4.—Following unqualified charges of unjust discrimination by the railroads against the South in the matter of stopover privileges, the board of directors of the New Orleans Progressive Union issued a call to-day to Southern commercial and civic bodies and railroad companies to participate in a conference to be held in New Orleans in August this year, to be known as the Southern States transportation conference.

In the resolutions adopted the fact is noted that the wonderful development of the West is largely due to the almost unlimited stopover privileges granted by the transcontinental railroads, and it was declared that these privileges are withheld from the South without reason. If the South is placed on an equality with the West and East in the matter of stopovers, the belief is expressed that a large per cent. of transcontinental travel which passes through the Northern gateway will be diverted to Southern railway lines, and will have a great educational effect in directing the attention of the nation to the undeveloped resources and possibilities of the South.

It was declared to be the mutual interest of Southern California and the South that visitors to the Pacific exposition in 1915 should be induced either to go or return through the South.

It was at the suggestion of Colonel Collier, director-general of the Panama-California Exposition, to be held at San Diego, that the Progressive Union took this action. The Southern Commercial Congress has joined with Colonel Collier in inaugurating this campaign.

Grosvener Davis, managing director of the Southern Commercial Congress, and Colonel Collier will devote much of their time during the next three months to this work, and the latter predicted to-night that the transportation conference to be held in New Orleans in August would be one of the most profitable meetings held in the South in recent years.

News of South Richmond

South Richmond Bureau, The Times-Dispatch, 1020 Hull Street, Phone Madison 175.

Painters begin this morning the new South Richmond post-office, which has been in use now more than a year. No pronounced colors have been chosen for the interior work, and the whole finishing will be carried out in the artistic style that characterizes the building as it stands.

The lobby, a most handsome and impressive hallway, marble and quartered oak, ceiling and cornices will be painted a creamy color. The basement, post-office workroom and registry division, which will be finished in buff. The walls, color, with ceiling and cornices of cream. The interior of the building is now a netting work, the scaffolding being removed. The contractor won the award with a bid of about \$100,000. Postmaster Smith hopes to see the work finished within a few weeks. Some doubt is expressed as to the advisability of planting just at this time of the year the California pines in the old market building ordered by the department for the post-office grounds, but the postmaster will make the attempt. This work will be undertaken as soon as the Treasury Department can confirm awards of the contracts.

Court Changes Scene. The daily session of the Police Court, Part 2, held for so many years by Mayor Mace, and others before him, in the dingy police station in the old market building in the Courthouse Square, will be conducted this morning for the first time in the new and imposing Third Police Station, which is the corner of Fourteenth and Stockton Streets. The move was effected yesterday afternoon, and during the time the new station was being occupied by the police, the old station was closed to the public.

To Julius Lee, white, gray-haired and sixty years old, drunk and penniless, was the distinction of "christening" the new station house. He was arrested yesterday afternoon on the charge of being drunk and disorderly. He was released by the first call of the new court-room.

Something in the nature of a reception was held yesterday afternoon by Captain Wright and his men in the new building, when crowds of visitors flocked to see the interior of the remodeled and improved jail. In the station house yesterday as well as a number of men, while the ladies looked on through the windows. While the telephone connections have been installed, the electrical connections have not yet been made. It is intended to install several oil lamps which will light the home of "manchester's" coppers."

Property Is Sold. By virtue of a deed of bargain and sale, recorded yesterday in the clerk's office of the Hustings Court, Part 2, the lot on the north corner of Market and Washington Streets becomes the property of Charles B. Richardson. The lot, fronting 21 feet on Washington Street and 13 feet on Market Street, is sold for \$2,000, which is considered a remarkably good figure for residential property. The land was owned by Mr. and Mrs. J. B. McManigal and others.

A great many deeds for residential sites are being recorded in the Hustings Court, Part 2, showing unusual activity in the class of real estate in Washington Ward. There are also rumors of several large deals in manufacturing sites, but no confirmation of these reports can be obtained.

News of Courts. The \$1,000 damage suit of Powell against the city of Richmond is scheduled for hearing this morning before the jury of the Hustings Court, Part 2. This case is of interest because of the fact that Powell charges the city with criminal neglect because of a defective sidewalk, costing him a painful fall.

SURVEY FOR NEW BRIDGE. Reinforced Concrete Structure to Span Po River Will Be Built. [Special to The Times-Dispatch.] Spotsylvania, Va., May 4.—State Engineer Snodgrass of the State Highway Commission, yesterday, under the supervision of the Improved Public Road Commission of this county, made a survey of the ground and stream at Shell, with a view to building a steel structure and reinforced concrete bridge over the Po River. This will be one of the largest bridges in the county, and bids will be immediately advertised for and submitted to the Public Road Commissioners. The citizens generally favor macadamizing the public highway from this bridge to the county seat, a distance of two miles or more, and the impression prevails that this can be accomplished easily, as an abundance of black granite lies near to the site, and the bridge is a short distance.

Death of Mrs. Mary D. Royall. [Special to The Times-Dispatch.] Malvern Hill, Va., May 4.—Mrs. Mary Douthat Royall, widow of John P. STATE INSURANCE SCHEME APPROVED. London, May 4.—The long-promised scheme of State insurance against unemployment, sickness and invalidity, introduced in the House of Commons to-day by David Lloyd-George, chancellor of the exchequer, was received with extraordinary approval by all parties in Parliament.

The government's supporters hail the insurance measure as the most comprehensive plan of constructive legislation ever introduced in Parliament. It is a measure of complete and complete anything anticipated. A strong note of criticism is already emanating from the heavy manufacturers, who are certain to be heavily burdened. In brief, the situation appears to be that even if the opposition dislike the measure as socialistic it will not dare oppose it.

The plan proposed is that every worker whose earnings fall below the income tax level, shall be entitled to a certain amount of insurance. The worker himself contributing one-half and the balance to be paid jointly by employer and state. Mr. Lloyd-George estimated that the expenditure incurred would be \$25,000,000 in 1912-13, rising to \$100,000,000 in 1915-16. The unemployment insurance, under the plan, would apply first only to engineering and the building trades, and the government's share of expense would be \$25,000,000 annually.

ARM GROUND INTO PULP. Sawmill Operative Is Victim of Serious Injury. [Special to The Times-Dispatch.] Enderby, Ont., May 4.—A sawmill operative, a sawmill operative, whose plant is located at Freeman, Brunswick county, suffered the loss of his right arm yesterday by having it drawn into an "edger" machine. Mr. Powell was adding a bolt on the machine when it began to revolve. His arm was caught by one of the circular saws and ground into a pulp. Owing to the extreme condition of the wound an amputation was done by Dr. Lewis of the Empire Hotel, Dr. Lewis and Malloy, of Lawrenceville, early Wednesday night. It was thought that Mr. Powell could not survive the operation, but to-day he is reported as doing well.

THIEVES BEAT OFFICER. Salem Policeman Badly Injured While Trying to Make Arrests. [Special to The Times-Dispatch.] Winston-Salem, N. C., May 4.—Policeman Swann, of Salem, in attempting to make an arrest, was badly injured, early this morning, was assaulted, knocked down and badly beaten. After making the officer look into the muzzle of a pistol, a negro grabbed Swann's belt, and with it pounded him over the head, inflicting serious injuries. The officer was then left helpless, in a sack carried by the thieves was found eight chickens and one turkey.
